

Customer Advisory

November 10, 2011

Effective January 1, 2012, **"The California Transparency in Supply Chains Act"** also known as Senate Bill "SB657" becomes mandatory.

The law mandates supply chain transparency of corporate policies and efforts to combat Human Trafficking and Slavery. The law does not require companies to do things differently, but requires transparency which can be supported via website posting.

To comply with the law, and provide the necessary transparency to you as our valued customer, please see the section titled "**Charter of Conduct – "K" Line Group Companies**" from "K" Line's Social and Environmental Report posted at: http://www.kline.co.jp/en/20111001/environment/report_pdf/2011/04_e.pdf .

"K" Line's complete Social and Environmental Report can be viewed at:
<http://www.kline.com/KAMEnvironment/Social-and-Environmental-Report-K-Line-2011.pdf>

We are pleased our customers support the cause. Your trust in "K" Line to handle your transport needs is greatly valued and appreciated. Please feel secure in the knowledge that "K" Line is committed to adhering to the compliance of global regulatory matters, voluntarily support various government initiatives, and firmly support principles of social and environmental issues. We continuously strive to ensure a more secure supply chain by our active role in supporting Customs initiatives, corporate principles, working closely with our partners, service providers and customers to ensure the most practical methods are implemented.
