In our Medium-term Management Plan, we define ESG (Environment, Social & Governance) initiatives as a key management issue. With respect for the environment, we are pursuing measures in line with "K" LINE Environmental Vision 2050 - Securing Blue Seas for Tomorrow (Note 3) that is our long-term environmental vision formulated in 2015. We are honored and proud of the various activities being highly evaluated in connection with our 2015 vision.

As an environmental front runner, we will continue to aim for the realization of being a business that enables a greater number of people around the world to enjoy the advantage of marine transportation characterized by a lower environmental load and higher efficiency.
