Kawasaki Kisen Kaisha, Ltd.

### Participation in the Taskforce on Nature-related Financial Disclosures (TNFD) Forum

Kawasaki Kisen Kaisha, Ltd. (“K” LINE) has joined the Taskforce on Nature-related Financial Disclosures (TNFD) Forum\*1.

In October this year, “K” LINE conducted a comprehensive assessment of risks and opportunities by introducing the LEAP approach\*2, which is proposed by the TNFD, to evaluate the environmental risks and nature-related impacts of our business and consider appropriate responses as part of our information disclosure under the TNFD framework.

As a member of the TNFD Forum, “K” LINE will be even more proactive in disclosing information and advancing environmental initiatives.

\*1 The TNFD is an international initiative aimed at building a framework for appropriate assessments and disclosures of risks and opportunities related to natural capital and biodiversity. The TNFD Forum is a group of stakeholders consisting of business enterprises, financial institutions, research organizations, and other entities. It was set up for the purpose of supporting discussion at the TNFD to help build a framework. Please refer to the following website of the TNFD Forum for details.

<https://tnfd.global/>

\*2 It is an integrated evaluation process for managing nature-related risks and opportunities advocated by the TNFD for information disclosure, consisting of four phases: **L**ocate (interface with nature), **E**valuate (dependencies and impacts on nature), **A**ssess (significant nature-related risks and opportunities), and **P**repare (for responses and reporting).

Please refer to the following website page of “K” LINE for details on LEAP analysis.
