Kawasaki Kisen Kaisha, Ltd.

Publication of ESG DATA BOOK 2024

Kawasaki Kisen Kaisha, Ltd. ("K" LINE) is pleased to announce a publication of **ESG DATA BOOK 2024**.

ESG DATA BOOK has been issued since FY2021 to summarize policies, systems, specific initiatives and relevant data related to "K" LINE Group's environmental (E), social (S), and governance (G) aspects. It has been published as a tool for dispatch of information to, and for communication with, stakeholders who are interested in the Group's ESG initiatives.

ESG DATA BOOK 2024 features new contents such as an "At a Glance" at the beginning, which summarizes the main quantitative information related to our sustainability and ESG. Also, we have expanded contents of disclosure in accordance with the frameworks of Taskforce on Nature-related Financial Disclosures (TNFD) as well as the list of key performance indicators (KPIs) for sustainability management. In addition, we newly include the index of the Sustainability Accounting Standards Board (SASB) Standards in the back of the book, which is one of the main frameworks for ESG information disclosure.

ESG DATA BOOK 2024 can be found on our website.
